

**Electrotechnic
Industrial Group**

**Automatic heatsink and
aluminum Profile
cutting machine**

**THE BEST
OR
NOTHING**

GOROOH SANATI ELECTROTECHNIC

WWW.GSE-MACHINERY.COM

**Attributes:**

- Reasonable and economical price
- Easy maintenance
- Special equipment for Aluminum alloy heat sink cutting
- Control panel with a HMI and PLC
- Simple user interface
- Equipped with a closed protective cover
- Equipped with a vacuum cleaner to collect aluminum chips
- High Speed Circular Saw
- Digital ruler for saw movement (optional)
- Ability to Automatic feeding

SPECIFICATION

Applicable dimension	W : max 50 cm H : max 25 cm
Automatic Feed Length	3000 – 6000 mm
Blade Diameter	200 – 600 mm
Motor power	1.1 – 7.5 kw
SAW RPM	3000 – 4000 rpm
working voltage	3P – 380 V AC or 1P – 220 V AC 50-60HZ
Clamping System	Pneumatic or hydraulic
Sawing Direction	Cross feed
Working Pressure	+ 4 bar
