**THE BEST  
OR  
NOTHING**

GOROOH SANATI ELECTROTECHNIC

[WWW.GSE-MACHINERY.COM](http://WWW.GSE-MACHINERY.COM)

**Attributes :**

- Reasonable and economical price
- Easy maintenance
- The machine platform is made with a strong profile and a thick steel sheets
- High quality conveyor belt, gearbox, motor and tunnel fans
- HMI, PLC control system (optional and by customer order)
- Equipped with PID Temperature control
- Equipped with phase control protection system, thermal fuse for all motors and SSR to turn the elements on and off
- With automatic feeding system (optional and by customer order)

**SPECIFICATION**

|                      |   |
|----------------------|---|
| Max load capacity    | 1000 kg                                 |
| Conveyor motor power | 1 – 5.5 kw                              |
| Fan power            | 0.37 – 1.5 Kw                           |
| Working voltage      | 3P – 380 V AC 50-60HZ                   |
| Mechanism            | Electromechanics - pneumatics           |
| Tunnel dimensions    | H = max 90 cm    W , L = 20 cm – 120 cm |

\* The brand of parts and sensors depends on the customer's order.
